# PULLING BELTS

We offers a wide range of high quality Draw Down Belts for the packaging industry. These manufactured toothed belts come complete with a backing on the top surface to help vertically draw down film in packaging machines to make bags. A complete range of moulded, seamless backings is available along with comprehensive machining, drilling & milling operations.

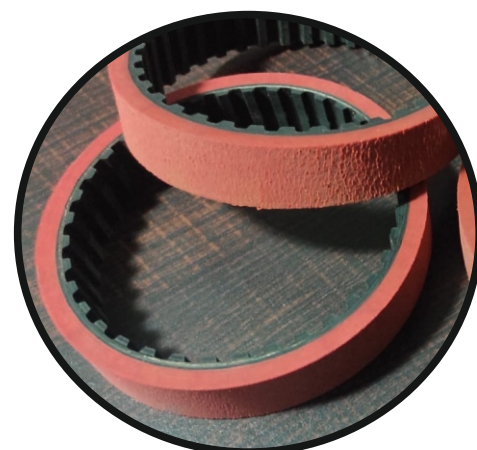

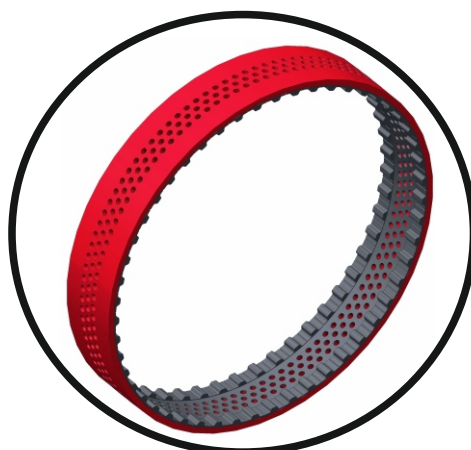

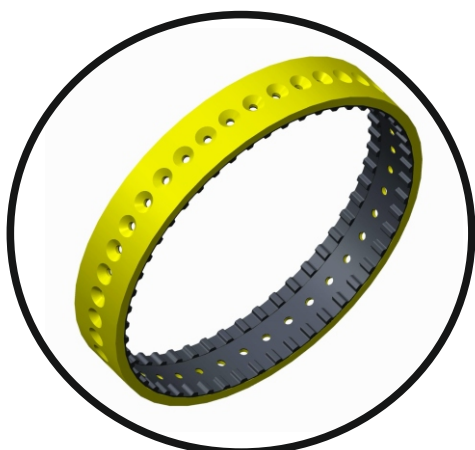

## Standard Stock Range

- Huge stocked range
- Very competitively priced
- Popular sizes available for next day delivery
- Bi-directional moulded belts
- Rubber Base Belts as standard
- Belts can be supplied in pairs and in sealed bags
- Full technical support, supply and stocking options

## Additional Custom Options

- Less popular sizes available at short lead times
- Custom endless backings
- Glued backings available for non-standard sizes
